

# INTERNATIONAL JOURNAL OF GEOINFORMATICS

Vol. 19, No. 5, May 2023  
ISSN 2673-0014 Online | ISSN 1686-6576 Print

- Multispectral's Three-Dimensional Model Based on SIFT Feature Extraction **1-8**  
**Shaharom, M. F. M., Abd Mukti, S. N., Raja Maharjan, G. and Tahar, K. N.**
- Accuracy Assessment of GPR Data for Buried Objects with Different Pipes and Soil-Based Conditions **9-18**  
**Hassan, A. K., Razali, M. H., Sulaiman, S. A., Idris, A. N., Ghazali, M. D. Hashim, M. and Junoh, S. A.**
- Employing the Flash Flood Potential Index (FFPI) with Physical Environmental Factors in Baling, Kedah through GIS Analysis **19-29**  
**Zulhisham, N. A. and Md Sadek, E. S. S.**
- Quality Assessment of Various CHC NAV GNSS Receiver Models **31-42**  
**Zafirah, Z., Sulaiman, S. A. H., Natnan, S. R., Idris, A. H. M. and Satirapod, C.**
- Implementation of Stochastic Modelling in Enhanced Cadastral Database for Multi-Classes Dataset **43-53**  
**Zulkifli, A., Abbas M. A., Hashim, N. M., Mustafar, M. A., Sulaiman, S. A., Razak, N. N. A., Yusop, M. K. M. and Nordin, S.**
- Denosing of Hyperspectral Signal from Drone for Ganoderma Disease Detection in Oil Palm **55-60**  
**Izzuddin, M. A., Hamzah, A., Nisfariza, M. N., Idri, A. S., Nor Aizam, A., Sharul Aikal, B. M., Nordiana, A. A., Mohd Najib, A. and Mohd Shukri, I.**
- Tree Height and Crown Extraction from UAV-Based Multispectral Imagery **61-68**  
**Suhaizad, L. S., Khalid, N. and Abu Sari, M. Y.**
- Identification of e-Scooter Shared (ESS) Stations by using a GIS-based MCDM Approach **69-78**  
**Roslan, A. and Naharudin, N.**
- Accuracy Assessment on Detail Survey Plan Using iPhone 13 Pro Max LiDAR Sensor **79-86**  
**Nik Azhan Hakim, N. N. A., Razali, R., Mohd Said, M. S., Muhamad, M. A. H., Abdul Rahim, H. and Mokhtar M. A.**
- Land Use/Land Cover (LULC), Change Detection, and Simulation Analysis of Manila Bay's Dolomite Mining Site in Cebu, Philippines Using Sentinel-2 Satellite **87-103**  
**Ordoñez, C. A. and Silva, D.**
- The Possibility of Using Terrestrial-Based Ground Penetrating Radar (GPR) Technology for Supplying 3rd Dimension Information for A Search and Recovery Mission for Landslide Victims **105-118**  
**Halim, N. Z. A., Abdullah, N., Ghazali, M. D. and Hassan, H.**

**International Journal of Geoinformatics (IJG)** is a peer reviewed journal and has an International Editorial Board. It is being published 12 issues per year.

It is cited by many renowned indexing and abstracting services such as SCOPUS, Elsevier GEOBASE, EBSCO, Geoscience Australia, British Library, Google Scholar, GIS Development, SJR, and Crossref. Past issues older than one year are available "Free" online: <http://www.e-geoinfo.com>
